To browse more tools that may fit your needs, visit mobile.va.gov/appstore.

Most apps are available on the Apple App Store and Google Play, however, some apps are available only on the VA App Store through a desktop version.

If you need technical assistance with these tools, call:

Health Resource Center Help Desk:
877-470-5947 | Monday to Friday: 7 a.m. – 7 p.m. CT.

Office of Connected Care Help Desk:
866-651-3180 | 24/7

Web-based Veteran training on issues related to sleep, anger, parenting, substance use, parenting, and other topics can be accessed at: www.veterantraining.va.gov

Prescription for VA Virtual Care Tools

Expanding Veteran Access to Care Through Virtual Technologies

Gain greater control of your VA personal health records with online access from anywhere, at anytime.

Since 2003, My Health eVet has served as a trusted online portal designed to allow you to easily access your Personal Health Record (PHR). Whether at home or on-the-go, you can review health care records, discover educational sources, and conveniently communicate with your VA care team. My Health eVet supports you in making informed health decisions to manage your personal care plans

With a Premium account, you can send and receive secure messages with your VA care teams, review your health care providers' notes, order prescription refills, manage your VA appointments, and more.

To learn more about My Health eVet, register for a Premium account by visiting myhealth.va.gov.

Sign up for a My Health eVet Premium Account

If you need help signing up, visit or contact your local VA My Health eVet Coordinator or call 1-877-327-0022 (Monday – Friday, 7am-7pm (Central Time))

- Access health education and resources in the Veterans Health Library at: www.veteranshealthlibrary.va.gov

Increase your access to high quality VA care from home, the clinic, or the hospital.

VA Telehealth programs and technologies make it easier for you to connect with your VA care team and access care when and where you need it.

- Remote Patient Monitoring – Home Telehealth (HT), Low Intensity, Low Acuity (L2)**
- Synchronous Telehealth**
Connect with your VA care team through secure, real-time video.
- Asynchronous Telehealth**
Send secure messages, photos, or videos to your VA care team.
- Veteran requests telehealth visits and is video-capable**
(i.e. has a computer, tablet, or smartphone and internet) and requests help for VA Video Connect setup.
- Veteran requests telehealth visits, but is not video-capable**
(i.e. lacks computer, tablet, or smartphone and internet) and wants referral to the equipment loan program.
- Veteran needs/wants help** to become video capable.

Talk to your provider about whether VA telehealth could be right for you. For more information and a list of VA telehealth specialties, visit telehealth.va.gov.

To discuss options selected above, contact:

Instructions:

Improve your self-care online or through mobile text messaging.

Annie is the VA's automated text message system that sends automated messages to help you manage your care. You can receive health text messages without having to log into any system. Any mobile device with texting capabilities can receive Annie messages.

Learn more and sign up for the protocols listed below at mobile.va.gov/annie.

Annie protocols recommended today:

- Coping during COVID-19**
- Coronavirus Precautions**
- COVID-19 Vaccination Support**
- Oncology Symptom Reporting**
- Stress Management**
- Tobacco Cessation**
- Weight Management**
- Other:** _____
